*\*This form is offered as a guideline for information you may want to share with your legal support before an action. If anyone in your affinity group is arrested during the action, please call the legal number you wrote on your body and share only the information from the form that you think is necessary. Those doing jail support will do their best to track you through the system, and will provide as much support as possible. The legal system is designed to break us down and dehumanize us. Having a legal support person is just one more step toward resisting the criminal "justice" system, the illegitimate state it props up, and the corporate and government rulers who use this system to oppress and silence us all.*
